To Whom It May Concern:
Subject: Helping Hands Day Care

To whom it may concern:

Dawnita Atkins, who owns and operates Helping Hands In Home Day Care, has been responsible for the daily care of my two children, ages 6 (boy) and 9 (girl) for a period of approximately one and a half years. She was responsible for getting my son to his kindergarten class and picking up both children after school and watching them until I would pick them up each weekday after work. During the summer months she cared for both of them full-time. She was not only very professional, but also very personable and demonstrated genuine care and concern for not only my children, but for all of the children in her care. She provided a clean, safe and controlled environment and took a very hands-on approach at keeping the children occupied through the day. I would recommend her highly and will certainly be hard pressed to find a suitable replacement for the care of my children.

Sincerely,

Kelly G. Bensene
