

Dawnie has provided child care for both of my children which started in 2007, when my son was only 5 months old. My children are now 9 and 6 and still look forward to going to Dawnie's on no school days and during the summer. They have built wonderful friendships with Dawnie and her family, as well as all of the daycare children.

Dawnie is a fun loving, caring, responsible person who takes great pride in her business. She cherishes each child in her care and shows them how they are special and unique in their own way. She not only cares for the children but is also a great friend & resource for new parents and experienced parents to share their struggles, surprises & joyful experiences with.

To me, an important aspect of Dawnie's care is that she always keeps the children's interests intrigued. From changing out the toys the kids could play with to daily crafts that everyone can participate in. Adventurous outdoor nature walks to high energy backyard playtime. Calming resting periods to group storytelling. Her efficiency, organization and structured schedule allows the children to learn what is expected of them ... meal time, nap time etc., but to also enjoy the play times with one another. She encourages the children to grow, share and teach each other all while they learn the social aspects of a group.

I am grateful for the safe and loving care my babies enjoyed and continue to grow with during their elementary school years.

I'm available to provide any further experiences or answer any questions regarding the care that Dawnie provides at

Sincerely, Nichola Moore.
